Team Name _____ Topic _____
Members _____ Period _____

Your task is to create a poster to make people aware of the intolerance some face in school and help educate our community through posters. Posters will need to have a professional look and follow the layout of the Autism Sample. Your group will need to do some research on your chosen group so that your facts are accurate. Completed posters will be presented to the design firm CEO (teacher) for assessment.
(Sample on next page)

Posters that meet all of the requirements will be laminated and placed throughout the building and later throughout the community.

Write your ideas below and present them to your manager (teacher) for approval. Passes for research to the library can be given if necessary.

Once research and design is complete, the group will complete a sketch before beginning a final poster.

AUTISM

**Students with Autism are in our school and community.
Words like “Retard” are hurtful, mean and intolerant.**

FACTS:

- Autism is a neurological disorder characterized by impaired social interaction and communication.
- 1 in every 150 children is diagnosed with autism.
- The cause is currently unknown but does have a genetic link.

We could learn a lot from crayons; some are sharp, some are pretty, some are dull, some have weird names, and all are different colors....but they all exist very nicely in the same box.
